THE REPORT OF BALLINGER

RECOMMENDS MANY IMPORTANT
CHANGES IN CONDUCT OF IN-
DIAN AFFAIRS IN OKLA-
HOMA.

MERGING OF TWO BIG OFFICES

Would Change Grazing and Timber
Cutting Regulations—Admits
Land Title Suits Have
Avalued Nothing.

Washington, D. C., Nov. 29.—Recommending the closing up of the affairs of the commissioner of the five tribes of June, 1911, and after that date turning over all the work to the Indian agency at Muskogee; recommending legislation authorizing the Indians to give a five-year lease on grazing lands and sell mature timber of Indian lands, abolishing many of the Indian schools, doing away with the present system of buying supplies; praising the work of the district agents; declaring the work of the general field officers of the department to be rotten and recommending a shaking up and admitting that the 30,000 land suits brought by the government to remove clouds on titles had accomplished nothing, the annual report to the president made today by Richard A. Ballinger, secretary of the interior, is public and contains much information of vital interest to Oklahoma.

Field Service Rotten.
The field service of the Indian bureau is rotten according to Secretary of Interior Ballinger, and a thorough re-organization is now in progress. Faithless and deficient agents are being weeded out and only those of a high type of character and efficiency are being retained in the service.

In Mr. Ballinger's annual report he takes occasion to say: "The Indian service is purchasing about \$2,000,000 worth of supplies each year under a system which is in no wise based on commercial methods."

It is the purpose of the secretary to have the Indian supplies purchased through purchasing agents and to make arrangements for the elimination of certified checks, contracts and bonds, and to provide for the settlement of bills within discount periods not to exceed thirty days from delivery. In this way the cost of inspection (inspectors now receiving \$10 a day and expenses) will be cut out as the goods will be bought f. o. b. destination, and inspection made by the superintendent receiving them.

Lands District Agents.
The district agency service in Eastern Oklahoma has grown successful. The most important work of these special agents is the investigation of guardianship cases among the Indians and the examination of the reports of trustees. The report states that by this system the Indian wards of Eastern Oklahoma were last year saved \$300,000 and that an additional \$200,000 was saved in the collection of back rentals upon leases.

J. George Wright Must Go.
If Secretary Ballinger has his way, J. George Wright, commissioner to the five civilized tribes, will be out of a job on June 30, 1911. He says: "I recommend that the commissioner to the five civilized tribes be continued until June 30, 1911, and that the work then incomplete be turned over to the agent at the Union agency."

According to Mr. Ballinger the work of the allotment of lands of the five tribes is about completed, although there remains considerable to do incident to field investigation and the location of such Indians as remain unallotted and are unaccounted for, together with surveys which must be made to accurately describe reservations for schools, churches and cemeteries and also in connection with the appraisement and disposition of the unallotted surplus lands, which will aggregate, including the segregated coal and asphalt lands of the Choctaw and Chickasaw nations about 3,500 acres.

To Sell Timber.
The removal of a law by con-

gress authorizing the secretary of the interior to make long time leases on Indian lands and sell some of the mature timber on Indian lands is one of the recommendations made by Mr. Ballinger. In the leasing of lands the secretary wants the power to lease for periods not to exceed five years, lands valuable for grazing or business purposes in connection with miscellaneous industries. Also a law authorizing the interior department to cut and sell mature timber on Indian lands and to authorize the sale of such timber by the allottees. When timber has reached its maximum growth it will necessarily deteriorate thereafter, and should be cut for that reason and to make way for new growth. It would also enable the department to supply the demand for timber from white settlers and business enterprises in the vicinity of the allotments.

Litigation to Remove Clouds.

On May 27, 1908, congress appropriated \$50,000 to be expended by the attorney general to cover the expenses of suits to be brought at the request of the secretary of the interior in the Eastern district of Oklahoma to remove clouds from the allotted lands, which arose from deeds, contracts, mortgages, and other instruments executed by restricted Indians without the authority of the secretary of the interior. Nearly 30,000 suits were brought in the name of the United States, United States Judge Campbell, of the district court, has sustained demurrers to these suits, holding that the United States did not have a sufficient interest, either in the person or the property, to maintain the actions but that they should have been brought in the names of the allottees. Therefore, very little practical result has been accomplished by the suits, although they were apparently necessary and involved a vast amount of work by the commissioner to the five civilized tribes and his force.

Names Private Secretary.

Lawton, Ok., Nov. 30.—Congressman Scott Ferris, accompanied by his newly appointed private secretary, Warren Gibbons of Lawton, left today for Washington, D. C. Gibbons is 28 years old and succeeds F. B. Swank, recently promoted to Deputy County Attorney of this county.

Railroads Fight State Tax.

Guthrie, Ok., Nov. 29.—The Atchafalaya, Topeka and Santa Fe, Rock Island and Pacific, and Missouri, Kansas and Texas railroad companies applied today to the United States circuit court for a temporary restraining order to prevent the state auditor from issuing tax warrants for seizure and sale of their property for their failure to pay the constitutional tax of one-half of one percent on their total gross revenues.

The railroads contend their rights, privileges and franchises were acquired from congress prior to statehood and the state may not collect taxes on revenues arising from business acquired under these congressional concessions.

For Four Years His Wagon Has Carried Children to School.

Stillwater, Ok., Nov. 30.—W. H. Matlock of Eagle township, one of the petit jurors, is a little proud of the fact that he is the first driver of a wagon conveying school children in Payne county. At Quay, in the northeastern part of the county, was organized in the consolidated school district in the county district No. 1. Four years ago Mr. Matlock began his work and his wagon has never missed a day, rain or shine, to carry on an average twenty-eight children to school.

GIRLS FIGHT WITH KNIVES.

In a Street Duel Miss Nora Owens
Was Stabbed, Resulting in Death.

Little Rock, Ark., Nov. 30.—A special to the Gazette from Bradford, Ark., says:

In a street duel with knives at Alicia, a town located near here, yesterday, Miss Nora Owens was fatally injured by Miss Stella Belk, and died within a few minutes after the cutting.

Both young ladies were very prominent at Alicia, were well known and stood well in the community.

The duel, according to the meager reports received here today, was caused by a misunderstanding that had existed between the two young ladies for some time.

Miss Owens was cut in four different places. The fatal cut was in the left breast, where an artery leading to the heart was severed and caused almost instant death. Miss Owens was buried today.

The funeral was attended by the largest crowd of people seen at a funeral in Alicia in years. Excitement at Alicia is high as the result of the killing.

Miss Belk was taken into custody by the officers.

SHAWNEE MAN PATENTS STREET CAR APPLIANCE

Charles DeLaney, a Rock Island steam shovel engineer of this city, has interested Eastern capital in his new invention of an automatic street enunciator for electric street cars. The enunciator will either display or speak the names of the streets as they are approached, or both. The equipment is made to work by electricity, current being sent through the mechanism from fixtures attached to the trolley wire at intervals desired. Mr. DeLaney expects his backers to be in Shawnee for a conference this week.—Herald.

CREEK WOMAN KIDNAPPED

TOVHEE THLOCCO, 80 YEARS OLD,
UNABLE TO SPEAK ENGLISH,
HAS BEEN RESCUED.

Spirited Away and Held Prisoner for
Two Months—She Is Wanted to Explain
Cause of Leases on Oil Lands.

Muskogee, Nov. 29.—Kidnapped at her home near Wetumka, spirited away and held prisoner for over two months, Tovhee Thlocco, a Creek woman 80 years old, and unable to speak a word of English, was rescued today by District Indian Agent Fred S. Cook and a posse of Indian police.

The government officers devoted their efforts to locating Tovhee when she couldn't be found to explain why there were two leases on her allotment which lies in the heart of the newest and richest oil field at Hamilton Switch, near Okmulgee.

Telling her story through an interpreter Saturday she said she gave a lease to A. W. Gill. This lease was made before oil was struck in the vicinity. Shortly after oil was discovered and value went skyhigh, two men went to the old woman and informing her that her first lease was void, secured another.

This latter lease was contested by Gill, the contestees being J. B. Porter of Tulsa and one Barber of Okmulgee. On the day set for the hearing Tovhee Thlocco could not be found and it was learned that she had been gone from her home for two months.

Then followed the search and subsequent discovery. Indian Agent Dana H. Kelsey held a long conference with the three contesting lease holders, but it is not known whether Porter and Barber are charged with being instigators of the kidnapping. It was learned through the rambling tale of the old woman that Bob Searcy and Barney Grayson took her to Grayson's home.

Oklahoma Crop Summary.

Guthrie, Nov. 30.—The Oklahoma State Board of Agriculture finds from the reports of its township correspondents, mailed on the 26th of November, that the yield of cotton per acre this season will be 145 pounds of lint as compared with 152 pounds estimated as the yield of last year, or a decrease in the yield per acre of 4.6 per cent.

The yield per acre of corn is shown to be 15.4 bushels as compared with 22.4 bushels estimated for the crop of 1908. The estimated acreage grown to corn this year is 4,894,016, and the estimated number of bushels produced is 75,306,137.

The acreage sown to wheat this fall is estimated at 98 per cent of that sown the fall of 1908, and the total acreage sown this fall is estimated at 1,381,533. The growing condition of wheat is shown to be 93.7 per cent as compared with 87 per cent at the corresponding date last season.

The acreage growing in alfalfa at the present time is estimated to be 114.3 per cent of the acreage growing at this time last year.

On July 25, last, the Board estimated the acreage of broom corn growing in Oklahoma at 124,251. The present report of various correspondents from broom corn counties shows that the average yield per acre of broom corn was .29 ton, that there were 35,958 tons produced, that the average value, per ton, received was \$132, and that the total value of the 1909 broom corn crop was \$4,762,889.

UNCLE SAM'S HIRED HANDS.

Number of Federal Employees Has Increased 64,000 Since 1907—Now Has 370,065.

Washington, Nov. 28.—The personnel of Uncle Sam's establishment is increasing by leaps and bounds, the grand total of all federal employees at present being approximately 370,065, as against 306,141 in 1907, an increase in the past two years of about 64,000 persons, or about 20 per cent. These and other interesting facts are brought out in the official register or government "blue book" for 1909, which shortly will be issued by director of the Census Bureau.

The new publication will show that there are 28,947 persons in the federal employ in Washington on July 1 last, the annual payroll for them being \$131,541,225 an average of nearly \$1,100 each.

This total will be temporarily swollen next year by the addition of about 3,000 persons to the clerical force of the census bureau, adding nearly five million in salaries during the year, or more of their employment.

ENROUTE TO SHAWNEE.

Missie Knows What She Wants, But
Doesn't Get What She Asks For.

A demure Miss of twenty summers, bedecked in radiant headgear and one of these dresses which has no particular waist, tripped lightly up to the ticket window of the Katy railway and leaning forward in a patronizing way demurely said: "Hand me your guide a moment, please." The good vender of tickets handed her his Bible with the remark, "This is the very best, I assure you." "Quite true," returned the blushing damsel, gazing intently at the volume, "but I am afraid this book will not give me directions for getting within miles of the place I want to go to. You see, I am looking up the route to Shawnee."

To filter the blood is the kidneys' duty. When they fail to do this the kidneys are sick. Backache and many kidney ills follow.

Urinary trouble, diabetes, Doan's Kidney Pills cure them all. William Tolson, Oklahoma Ave. and East First St., Sulphur, Okla., says: "About two years ago my kidneys became disordered. The kidney secretions were unnatural and irregular in passage, and this, coupled with backache, made me miserable. The contents of a few boxes of Doan's Kidney Pills cured me. I have had occasional backaches since then, due to exposure to all kinds of weather, but a few doses of Doan's Kidney Pills have never failed to dispel my trouble. Through experience I have found that this remedy is one that can always be relied upon to give relief."

The W. C. T. U. will have a parlor meeting tomorrow (Thursday) afternoon at 3 o'clock with Mrs. G. H. Keen. All members are urged to be present at this meeting and every one interested in the work is cordially invited.

J. H. Neal received a telegram this morning announcing the serious illness of his sister, Mrs. Hall, at Tishomingo. He left at once for her bedside. Mrs. Hall is the mother of Frank and Mack Hall, who are also with her.

The pastors and the official members of the churches of Ada will meet in the parlors of the First Methodist church Friday evening at 7:15 to counsel together and to confer with Brother Ramsey concerning the meeting which begins next Sunday.

On December 4th, at Opera House "The Beggar Prince" will be with us, and if theatergoers are ready for a good thing in the musical line they will take in the Prince during his visit to Ada. For a great many seasons past it has been a welcome visitor in nearly every city of the United States. While the story of the play remains the same, the management has injected new up to date music, songs, dances and comedy situations. The presenting company headed by Etta Merris is said to be a strong one aided by a talented chorus of pretty girls.

Something About Taxes.

When kicking about your high taxes, suppose you examine your township tax. Just notice if during the last ten years your township has not increased its expenditures several hundred percent. In many instance townships that used to spend three hundred dollars for all purposes are now spending from one thousand to three thousand dollars. These expenditures are something over which the state and county authorities have no control. These expenditures are authorized by the local authorities, as they should be, and are spent in improving the roads and other legitimate purposes, or at least, they should be spent for legitimate purposes. This is something that the republican press fails to point out when kicking on taxes and would have the people believe that the state government is directly interested in levying and collecting these taxes. State taxes are less than when Oklahoma was a territory or in other words, territorial taxes were higher than state taxes but local taxes, owing to local improvement and better schools are higher.

Oh, How Mean!

There were no permits to wed issued today, but one couple from Allen came within an ace of beginning to eat groceries together. Just before the noon hour a young man and a little lady—pretty as a picture, she was—called at Judge Terrell's office for the credentials, but were turned down on account of the permission of the girl's mother, which was sworn to but not acknowledged. The "cruel" Judge offers this information to the young lady who wishes to become a housekeeper while between ages of 15 and 18 years. You must have your parent's permission in writing and signed and acknowledged to before a notary. Then go and get tied up.

President Taylor H're.

J. T. Taylor, president of the Texas Building Co., is in Ada today reviewing the construction of the East Central Normal building. Mr. Taylor is an affable gentleman and talked freely about his Ada job. He stated that he could not ask for a more flattering outlook for rapid and efficient progress on the Ada building, and that if pretty weather continues, something a little better than 60 days will find the roof going on.

The gentleman also stated that of all the building sites in Oklahoma he has not found one that ranks with the East Central Normal site in beauty and proximity.

The big concrete mixer is in operation today and it is astonishing to see how rapid and well it does the work.

A Budding Humorist.

Papa, said a small boy who lives on Corona street, last night, you've heard of Dr. Roller, the wrestler, haven't you?

Yes, replied his father.

Well, supposin he should get drunk

What of it?

Would his jag be a Roller skate, or—

Right there his father began to cloud up and the boy thought it time to go to bed.—Denver Post.

Moved Into New Hall.

The city administration is now pleasantly inclosed in the beautiful new \$20,000 city hall, the transfer from the old shack having been completed a few minutes ago. All the offices are conveniently situated on the second floor with the exception of that of city attorney and police judge, which are on the ground floor. The hall building is a dandy, second to none in the state.

Busy Sidewalking.

Contractors Morris and McDonald began work this morning constructing the sidewalk around the new city hall, on Twelfth and Broadway. The work is being hustled by a large gang of workmen.

Sing—Singer—Singer.

Every person who will assist in the music in the approaching revival is requested to meet the leader, Rev. E. R. Smoot, at the First Methodist church Friday at 7:15 p. m.

Beebe Items.

Sunday school was very well attended.

Mr. Tom Bellew is at home after a few months absence.

Miss Floy Tilley was a guest of Mary Waldbay last Sunday.

Miss Daisy Humphers was a guest of Miss Viola Mole last Sunday.

Mrs. Tilley was the welcome guest of Mrs. G. N. Waldbay last Sunday.

Mr. Wesley Keeter was a guest of Mr. Homer Neal and Jim Waldbay last week.

Miss Hattie Hinkle was the guest of Misses Isabel and Florence Neal last Sunday.

There will be preaching on the second Sunday in next month by Bro. Nettles of Ada.

Miss Myrtle Bridges and folks will leave this week for Arkansas where they will make their future home.

We had a singing on Thanksgiving night at Mr. Hagers. A large crowd was out and a good time was reported by every body.

Mr. Homer Neal, Wesley Keeter and Jim Waldbay, some of the Normal boys, returned to Ada Sunday after spending Thanksgiving with home folks.

Messrs. Wesley Keeter, Homer Neal, Lucas Neal and Misses Gabel and Florence Neal, Maggie and Jennie Hager and Myrtle Bridges took Thanksgiving dinner with Jim and Mary Waldbay. A fine time was reported.

The people of this community met and organized Sunday school last Sunday with Prof. Leazluby as superintendent also Mr. A. P. Roberts, Prof. Leazluby and Mrs. M. A. Humphers as teachers, Mary Waldbay as secretary.

Well I wonder what the Normal boys were doing at Egypt last Saturday night.

WHITEY IN THE TOILS.

City Laborer and Alleged Financier Gets Mixed Up With the Law.

Chief of Police Culver grabbed a gent yesterday who is accused of having negotiated some very mean meanness the night previous. When the chief asked him for his name he said it was "Whitey"—just "Whitey"—but he must be mistaken—he must have another cognomen, somewhere.

Even if Whitey is shy on the disclosure of his name, he doesn't mind loosening up with a little information which he told the chief he has been in the city about 30 days, being employed by the city.

He is accused of having touched Tink Bevels for \$80 Monday night while Tink was sound asleep at a local hotel. The hotel was crowded as always, and Tink and Whitey were forced to double up. When Mr. Bevels awoke, his eighty was gone and yesterday Mr. Whitey was arrested. \$62.65 was found on him and despite his claim that he won the money in the honorable game of poker, the officials are confident that they have the guy who "made" \$80 in a single minute.

Mr. Bevel is a prominent farmer living near Ada and very often visits the city on business, but not to be flimflammed. Whitey will be given a preliminary hearing probably tomorrow.

ADDENDA TO FRISCO FAMILIES.

Two Girls and One Boy Born Yesterday to Members of Frisco Employees.

A very unusual coincidence is reported yesterday to have occurred at the homes of the employees of the Frisco railroad at this place, in which three members are this morning rejoicing over the arrival of a baby to brighten the home life of the parents. The happy fathers are: J. J. Chapman, the genial and efficient agent, a sweet little girl was born, and to W. C. Booster, the popular section foreman, was also born a girl; while to A. W. Croker a bouncing boy made his appearance.

We will wager a ginger cake against a jug of buttermilk that the like has never happened to another crew of railroad men in the state.

'Tis the Way of the World.

Peary will get \$1.18 per word for his story of the North Pole discovery, and has closed a contract with a leading magazine for a story of 50,000 words. In addition the story will be printed in book form by the magazine publisher and Peary gets a royalty of 20 per cent on this. Verily it's a funny world we live in. The man who discovered the North Pole, a thing nobody needed and nobody wants, will wear diamonds and smoke 50-cent Havanas, while the man who discovered the buttermilk cure, something everybody needs, must continue to dun delinquent subscribers or starve.—Shawnee News.

A Great Day at Conway.

Thanksgiving day is a day that will be long remembered by the little folks of this place. Our good teacher, Miss Barnes and Mrs. Mayers, with about 60 school children, highly entertained a large crowd at the new school building where Miss Nannie Barnes is teaching. She is an accomplished teacher and never fails in advancing the classes and one that we are proud of, as well as the News.

BURLESQUE FIELD OF HONOR

Mimic Dueling, with Wax Bullets, Pop-
 ular in England and on the
 Continent.

Mimic pistol dueling, now popular in
 England and on the continent, has be-
 come possible through the invention
 of Dr. Devillers of wax bullets with
 cartridges to fit the modern French
 dueling pistol and the regulation army
 revolver. The cartridge is fitted with
 a cap which contains a sufficient
 charge to insure accuracy of fire, and
 the projectile strikes the object at
 which it is aimed with considerable
 force. The combatants, however, wear
 wire masks with thick glass to pro-
 tect the eyes, and they are attired in
 long, loose coats, for the protection of
 the body and limbs. Affixed to the
 pistol in front of the trigger is a steel
 shield for the hand.

Pistol dueling is a sport in which
 physical fitness and self-discipline are
 essential to success. It is necessary
 to be a good shot and something more,
 for there is a considerable difference
 between taking a deliberate aim at a
 fixed target and shooting at an armed
 opponent at the word of command
 within a period of a second and a
 half. In these mimic duels the cere-
 mony of a "serious affair" is observed.
 There is a director of assaults, a
 judge to decide which of the competi-
 tors fired first, and four "markers" to
 judge the hits.

Competitors are placed at 25 paces
 from each other—a distance of 22
 yards. They stand with their pistols
 pointing downward clear of the feet,
 and butt touching the thigh or knee.
 The director gives the word "Fire,"
 and while he counts, one, two, three,
 the combatants raise their weapons
 and fire. If a competitor raises his
 pistol before the word of command, or
 if he fires after the word "three," the
 result of his shot is nullified.

Mr. Wattersdon Writes of London.
 How many "Mrs. Bouncers" have I
 not known in London, with nearly 50
 years of intimate knowledge of every
 part of it; for I have lived in Blooms-
 bury, as well as Belgravia; in Berkley
 square and Mount street and Picca-
 dilly; and I know Billingsgate and
 Houndsditch almost as well as Tot-
 tenham court road and the region
 around the Elephant and Castle. My
 first "Mrs. Bouncer!" She is in
 heaven now, bless her dear old soul!
 That was in Jermyn street, 58. It is
 all gone long ago; in its place big,
 burly skyscrapers stunted in their
 growth, just off St. James street,
 where White's and Crookford's were,
 and the sports of a hundred years ago
 danced to the giddy mazes of Lou and
 Hazzard when they were not playing
 for larger stakes in the palaces about
 Whitehall and Holland house, in
 which the helresses displayed their
 charms and their rent rolls. What
 snowballs of pillows and bolsters;
 what chops and potatoes; and how
 good old "Bouncer" was to her Babes
 in the Wood! I can still hear the
 chiming of St. James chapel ring out
 the hours, and, when the milkman's
 bell rang of a morning, the joke was,
 "There's the queen again, and we
 not dressed yet!"—Louisville Courier-Journal.

Famous Precious Stones.
 The romance of precious stones is
 of absorbing interest, for many world-
 known gems have strange histories
 connected with them. The Cullinan
 diamond takes its name from T. M.
 Cullinan, who was born at Queens-
 town, Cape Colony. For many years
 he knew that diamonds existed on the
 Elandsfontein farm, which belonged to
 a Boer named Prinsloo, but he had to
 wait until after the Boer war before
 he could purchase the land. The Pre-
 mier mine was first opened and the
 great Cullinan diamond was discov-
 ered there. It is three times larger
 than any diamond found before, and
 its subsequent presentation to King
 Edward VII. is well known. The
 Orloff diamond originally belonged to
 Empress Catherine of Russia, and it
 was given to her by Count Orloff. The
 diamond was stolen from the eye of
 an Indian idol, and an enormous price
 was paid for it. Catherine placed the
 "Orloff" in the imperial scepter of
 Russia, where it still remains—a won-
 derful stone, as big as a walnut, and
 perfect in purity and color.

A Roundabout Donation.
 An Indiana woman found one even-
 ing that she was short of kerosene for
 the evening lamp. As she could not
 depend on the slow delivery of the
 grocer's boy she took her oil can and
 started for the nearest grocery. On
 the way she met a neighbor who
 asked:
 "Well, what are you going to do?
 Of all things, you carrying an oil
 can!"
 "Why, don't get excited, my dear;
 I'm out on an errand of charity."
 "How is that?" the neighbor want-
 ed to know.
 "Oh, I'm merely going to donate
 three cents to the Chicago university."

Rich Men's Gifts Are Poor
 beside this: "I want to go record as
 saying that I regard Electric Bitters
 as one of the greatest gifts that God
 has made to woman, writes Mrs. O.
 Rhinevaunt, of Vestal Center, N. Y.
 "I can never forget what it has done
 for me." This glorious medicine gives
 a woman buoyant spirits, vigor of
 body and brilliant health. It quickly
 cures Nervousness, Sleeplessness,
 Melancholy, Headache, Backache,
 Fainting and Dizzy Spells; soon
 builds up the weak, ailing and sick-
 ly. Try them. 50c at G. M. Ramsey's.
